An Unparalleled Movie Trivia Experience.

PopcornTrivia is an app for movie lovers looking for a challenging trivia game. Our app offers an unparalleled experience of enjoying a new movie in the theater, and immediately afterward challenging yourself with rewarding trivia questions about the movie. Our ever-expanding library of movies includes award-winning classics, fan favorites, and blockbusters. PopcornTrivia is continuously evolving its features and provides innovative ways to challenge players.

A Game For Movie Buffs Created By Movie Buffs!

We are a devoted group of film buffs that take pride in every question we create. Each unique question includes an answer page with fun and interesting follow-up info. Location questions are followed up with access to Google maps, where you can explore the movie's actual filming locations. Music questions allow you to listen to music samples and select the correct scene where the song is played; the follow-up page gives you the opportunity to download that song. SuperFan questions are followed up with compelling info about Easter eggs and other film facts. Dilemma questions prompt you to recall which character had to choose between two conflicting moral principles. The follow-up page gives you a chance to vote on which moral principle you would have chosen and reveals how the community voted. Recipe questions offer the unique challenge of selecting which elegantly plated dish was inspired by the movie. All dishes are created by our culinary team and the recipe for the correct answer is on the follow-up page. Questions are also created for iconic items in the movie, like cars, weapons, and clothing, which are followed with shopping links to websites that can be browsed at your leisure.

Popcorn (in-game currency) is awarded in both single-player and multiplayer modes. Single-player mode allows you to choose your favorite movie and earn Popcorn with every correct answer. Multiplayer offers you the ability to win popcorn quickly by competing against other players in a head-to-head, winner-take-all, randomly generated trivia question match.

Personalize Your Movie Inspired Avatar.

Your Popcorn stash can be used to customize your avatar with iconic items from movies, such as Thor's hammer, the Death Star, the Golden Snitch, and Elsa's Frozen tiara. Items vary in value, giving you the chance to work towards earning higher-end items that add larger multipliers to your Popcorn winnings. Popcorn can also be used to unlock trivia questions for popular shows like Game of Thrones, Stranger Things, and Daredevil.

Free To Play!

PopcornTrivia is a free download and is available across a wide variety of platforms including Apple phones, tablets, and TVs, Android phones and tablets, and Windows phones, tablets, and PCs. The app isn't littered with annoying advertisements. We strongly believe that creating a great user experience will make PopcornTrivia the place for movie lovers to play and explore.

Keep It Poppin'!
